gig. The conversation that ensued soon assumed a tender tone, and the tradesman

ventured to press the hand of the lady and to take a peep into her face, which he thought from modesty she had kept averted from him. He then saw two fierce eyes and a rough beard, and the sight struck him with terror. After a moment's reflection, however, he let his pocket-handkerchief drop into the room, and said he, "Madame, I must stop and pick up my pocket-handkerchief; but my horse is so vicious that I cannot leave him: it is taking too great a liberty to

"Not at all, Sir," said the pretended lady.

jumping from the gig, and at the same moment the tradesman, whipping his horse, drove off as fast as he possibly could. A basket left by the bandit in the gig was found to contain a poniard and two pistols."

that a young lady of sixteen years of age, the daughter of a respectable and independent farmer, whose name we will not mention, for the present, residing near that town, had, to use a Yankee phrase, "made tracks" with a journeyman baker who worked in Newmarket, taking with him as provision for the journey the trifling sum of £700. The father was at the

she found it quite convenient to entrust herself, at a farm which he held at Epsom, his money was in a drawer in his room, the keys of which the young lady knew to be in another drawer to which she had access, and from which she drew the most profitable "batch" in the shape of gold and bank notes, that the adventurous kever drew since first he laid hold of "usque." (The discovered, &c., &c.)

them into Limerick and invoked the assistance of Constable Nash, who declared that they had departed on an empty jaunting-car for Tipperary, upon which he telegraphed to the junction to have them detained, but it would appear they had anticipated the complimentary message, although the father followed them by the first train this morning, nothing sign-

HORRIBLE AFFAIR.—Yesterday afternoon, while a boy named James O'Connell, aged about 12 years, son of Mr. O'Connell, who lives on Third street, South Troy, was passing along the walk near his father's residence, a

name unknown, set upon him a large savage bull dog. The boy, on turning, seeing the dog coming full speed upon him, naturally became very much frightened, and endeavored to escape by running. The man meanwhile encouraging the brute onward. Of course, the dog sprang overtook the boy. He caught him in the middle of the back, his teeth sin-

to the bone, when, by claspings his jaws, and jerking with them, he tore out a clean to the bone, as large as a man's hand! His rage increased with the loss of blood; it was now impossible to tear off the dog. He again caught the boy by the thigh, and bit out a piece as large as could grasp with his teeth, laying the bone bare here. Another bite was inflicted

on the leg, but was not so serious as others. Over two pounds of flesh have been extracted by the dog. This was literally being eaten up by the err. The brute who set the dog upon boy deserves, as we hope he will receive punishment. Dr. Burton, who called to attend the case, did everything the boy that lay in his power, but it is

THE The result of the elections in the Legislative Council conclusively proves that the great principles of the Reform Party are now those of the majority of the people of Canada. However inclined to shield the Administration, (as some have been) or to range under the banner of

other party, (as has been the case
others,) all have acquiesced in the
doctrines which it has been the priv-
of Reformers to uphold, and have prom-
—romised sincerely, we trust in
—cases, to carry them out faithfully.
question of Ministerial or Anti-Minister-
has indeed sometimes been the main
at issue, and how low the government

fallen is well illustrated by the fact that nowhere in Upper Canada has a candidate ventured to offer himself as their porter. Even in Rideau, Mr. Vankous had to clear his skirts of Ministerial transgressions, by pointing to the fact as yet he had had no political existence, and even this would have been useless without a lavish outlay of government money.

We have seen, almost without an exception, the candidates for the Legislative Council, staking their hopes of success upon the advocacy of liberal principles: Free Trade, Popular Education, Universal Education, Equalized Representation on the basis of Population, the disconnection of money grants to ecclesiastical corporations, economy in the public

these professors, we would not test
the sincerity of new converts;
we congratulate ourselves and those
who think with us that the principles we
held, and as far as we were able, we
advanced, have now so universally
tended themselves in this province, that
man dares to solicit the suffrages of

POLITICAL ECONOMY.—Among the books recently prohibited to Roman Catholic readers by congregation of the Index at Rome, is John S. Mill's *Principles of Political Economy*.

Port's Corner.

THE ANGELS IN THE HOUSE.

Three pairs of dimpled eyes, as white as snow,
Held me in soft embrace;
Three little cheeks, like roses, sweet and soft,
Were placed against my face.

Three tiny pairs of eyes, so clear, so deep,
Looked up to mine from heaven;
Three little forms, so sweet and true,
Were placed against my face.

Al! it well that "little ones" should love me,
As I do love my faith with them;
To know that ours our Father's loved ones,
Were placed against my face.

And said he, "not of such is heaven," and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;
And told them to go to their beds,
Where they were to sleep.

It is not of such is heaven, and
blessed them;

WEDNESDAY EVENING.

In the evening, the Firemen of Montreal had a grand Torch Light Procession which passed through the principal streets and formed the chief object of attraction. Some Fireworks were displayed in the vicinity of the new reservoir, which hundreds took the opportunity to visit.

RAILWAY ACCIDENTS.—On Saturday afternoon the special Train from Montreal to Toronto ran off the track at a crossing near the city. The switchman had left the "points" open after switching the Train off at the side to wait for the passenger train. Fortunately there was no injury done but the breaking of one of the wheels of the baggage car, and a delay of some six or seven hours. Had the passenger Train been under regular motion the damage and loss of life would have been great.

ties the baggage cars,"—the largest, but, we believe, that has yet traversed the Grand Trunk. Every seat was filled, and before the Train reached Belleville, the morning before last, the hundreds of the passengers were able to find any other than very questionable room for standing. Not less than 1,000 passengers were conveyed to Montreal by the Train. Besides this, two local Trains—one from Belleville and another from Brockville, had left the same morning, and another through Train from Toronto started a few hours later, bringing with it 1,700 passengers. Owing to the great load, the speed was rather slow; the time occupied during the trip being 12 hours, or about 8 miles an hour. Much more time than ordinary was lost at the several stations where we stopped, which assists in explaining why our fine span of iron horse

THURSDAY.
The forenoon of this day was spent going to visit the Victoria Bridge, the greatest engineering wonder in the world. This Bridge was commenced, as many of our readers will recollect, one year ago last July, and by contract is to be completed by 1890. The estimated cost will be some \$6,000,000. Its entire length over 7,000 feet, or more than one mile and a quarter. It consists of 26 piers built of solid cubes of stone, each weighing several tons, riveted, doriaetailed, cemented, in the strongest possible manner. The centre span is 350 and five of the other spans 242 feet. The Bridge will be of the tubular form, like that of

inclusion. On Monday evening the car was involved in a collision with other and more fatal accident occurred on the same place. The up Train runs on the same track, which had been left on the track, injuring several passengers, and breaking several of the cars in pieces. Some measures should be immediately adopted to prevent such mishaps for the future, as few people wish to jeopardize their lives in consideration of speed, or the new Railway travelling.

Correspondence.

To the Editor of the Hastings Chronicle.
SIR,—Your last paper contains an account of a letter from me to the Editor of your paper, signed by two of our Magistrates, Mr.

At Kingston, and Cornwall, the rush to the refreshment tables was anything but unbecomingly to those who came just in time to see the last cup of "hot coffee" (strained to the dregs, or the last edition "debunked" by some of their rapacious neighbors. The rooms at Kingston were commodious, and the tables well supplied, but at Cornwall not one-tenth of the "connoisseurs" could get in the room, and hence gaze through the windows in the mortifying manner at the refreshment tables could not reach.

tain in the same is estimated at 500 tons. The contents of the Mazoni sumo 30,000,000 cubic feet. The height from the surface of the water to the top of the structure is estimated at 60 feet. Such are some of the dimensions of this wonderful structure, designed to form a connecting link between commerce of the far West and the East on the Eastern coast. After the engineers had taken a view of the Great Trunk Workshops, and the Waterways, they returned once more to the new works, and were duly inaugurated the Fountain in Commissioner's Square. Here, a grand jet d'eau played in the air to the height of 150 feet, with a number of smaller jets at lesser distances, flying in parabolic curves, making a very pleasing appearance.

Apply and H. Holden Encls., who committed the robbery of Thos. H. Nichols, whose name was on the list, and who were charged with the robbery of the same person, and who were charged with committing the robbery were first arrested in their own house in the 3rd concession of the 1st district, where they have resided for a number of years, during which time they have been known to the police as thieves.

Second, they state that an investigation was had and the parties acquitted, and that the same was stated on their character, which was not correct, and what has caused the parties such a course cannot say; and that the parties were not found at the place where they were arrested in the 1st house; I had one arrested in Belleville, and one at the Railway station, and one at Wm. L. Encls. in the 4th concession of Tyndin's district, and the same was stated on their character, with the intention of going west, and the money was taken, and the parties were not found at the place where they were arrested; and the parties have gone if the Station-master could have taken their luggage; and as reason for the robbery of the same person, and who were charged with the robbery of the same person, and who were charged with committing the robbery were first arrested in their own house in the 3rd concession of the 1st district, where they have resided for a number of years, during which time they have been known to the police as thieves.

Upon arriving in Montreal we found that the city was already thronged with tourists from every part of the United States and Canada. Thousands had come in from the East, the South, and West. Guests had been invited from every city—from the rocky shores of New

In the afternoon, a Review of the army was held in the presence of thousands, on the *Champ de Mars*, by General Eyre, Commander of the Forces. The troops consisted of the 39th Regiment, part of the Crimean heroes, and the volunteer Rifle Companies of the city. The spectacle was imposing, and seemed to interest the host of spectators much more we venture to say, than fighting, instead of being "hampered" in "blood earnest."

THURSDAY EVENING

Was replete with amusements.

[illegible]

land into the fertile valley of the Mississippi—from the cool waters of the Hudson to the Gulf of Mexico. "Never has invitation been of so extensive a character, and seldom has there been to invitations so prompt and hearty a response. Notwithstanding the dense throng of strangers which poured into the city from all quarters, there were very few who did not find comfortable accommodation. The arrangements are due to the Committee's management for the ample and hospitable arrangements which their untiring efforts provided.

THE PROCESSION.

Early on Wednesday morning, the

The Exhibition commenced with a Grand charge of Rockets of various Gimmures, as followed by the following demonstration:—

- 1.—Salute of Floral Shells, bursting at an interval of hundred feet, displaying Clusters of Colored Stars, Showers of Gold Rain, &c.
- 2.—Grand Flight of Rockets, consisting of simultaneous discharge of numerous Rockets.
- 3.—Illumination of Bengal Lights, changing

Mrs. Murphy sworn— Says the 3 and 4 o'clock w.m., Hardy canister to go away, and that she came back kitchen where she (Mrs. M.) was at work, and looked over some knifed she was not in the habit of doing, a knife which she claimed to be my mother's, and an old rusty knife that Mrs. M. found, which knife was afterwards found, was in the trunk that she

as alive with people urging their way to get a view of the Trade's Procession. The Procession began to form at Commissioners' Square at an early hour, and was in motion by 10 o'clock in the fore-

4.—Cross of Malte, commencing with a white star, and ending with a cross, decorated with crimson—changing to a splendid Cross of Gold Rain.

5.—Tree, changing from a base revolving wheel to three beautiful Palm filling the air with stars of various colors of Taurillions.

6.—Morning Glory, composed of large revolving petals, and evaluations with reflections of crimson and green, forming groups changing place. Discharge of Rockets.

7.—Mechanic's Arm, (dedicated to Charles's Institute), composed of large revolving the uplifted arm, hammer, &c., decorated with a beautiful green wreath, in imitation of

by the Nun's Band, heading the Mon-
te Air Fire Brigade. The appearance of
these was very creditable, and fully sus-
tained their well earned reputation. The
Monte Horticultural and Agricultural
Societies, with Hardy's Band, and a
tribe of Caughnawaga Indians, covered
the float and decorated with feathers.
Then came trundling the Procession of
the day; large carriages built for the pur-
pose, and drawn by several teams of
horses, carried every variety of manu-
factured articles and artistic productions.
No large car was devoted to the Car-
penters and Joiners, bearing several
of the Mechanics at work planing and
sawing (not each other, but) some of
the lumber carried for the occasion. Another
float, drawn by eight horses, carried a large

10.—Gorgeous Ring Piece, showing four
revolving rings of various colors, all
smaller rings, producing a magic effect. Dis-
cuss of Floral Shells.

I remain, Sir,

work engine at work with a tender attached. One wagon had on it a steam saw mill in full operation, and another a threshing machine and separator with a circular saw attached, with the horses on the tread-mill and the machinery working and threshing and sawing as it passed through the streets. Neither was the veterinary department forgotten. Bookbinder, sign and hand-bills printed on the ground and the printing press, glass-foundry, iron-working, machinery, Tailors, Hatters, Shoemakers, Butchers, Bachelors, Sugar Refiners, Manufacturers of India Rubber, Carpet Bakers, Trunks, Soap, Candles, &c., and all the mechanical and industrial arts mentioned

13.—Grand Battery of Snells, of heavy metal, mounted on a carriage, with 200 lb. of Crimson and Green, to Double Contra-Re-Polks, decorated with various colors. Discharge of Rockets.

14.—Peruvian Cross, opening with a wheel of Splendid Colors, mutating to brilliant amid Crim Green, decorated with yellow and ending with a brilliant discharge of Shell.

15.—Giant Peruvia, commencing with 100 lb. of Crimson and Green, spreading to variegated and Chinese Sun Flies, forming the Peru. Discharge of Torbilliones.

16.—Yew Tree, muting from 200 lb. of Crim Green, forming a beautiful tree, at muting with explosion. Discharge of Rockets.

17.—Emblem of Union, a novel local scene presenting the City Seal, showing in their prairie colors, the Rose, Shmoeck, Thistle

[illegible]

ble, had each their peculiar car to exhibit their work, which car was decorated with flags, and followed by men, either on foot or horseback, who belonged to the different trades so designated. The Dutchers, especially, made a fine appearance. They were mounted on horses that looked as well, physically, as themselves. They numbered about 60. The Sons of St. Crispin were ten-fold more

18—A wreath of maple leaves, the initials C. E. W., emblematic of the union of Canada East and Canada West. The whole arched by the figure of a Native Indian, holding a bow in his right hand, and a scroll with the motto, "Concordia Salus," in the left. The scroll is inscribed by the English Canon. The design is by R. K.

19—Floral Pyramid, changing from a rose to various revelling Satyrs, forming a festal and a Bacchanalian colored river scene. Discharge of Rockets.

20—Display of Bengal Light, changing over illuminations.

21—Grand Fête, consisting of a mosaic of the designs of three beautiful Arcades. The central arch bears the motto of "God Save the Queen," and below glitters the Crown of England studded with jewels. Between the arches are the figures of a Native Indian, a colored figure, and the arch are the words, "Montreal Obeys the King." The arch upon the left bears the motto, "The Queen's Own." The design is by R. K.

THE SUGAR COUP—The St. Louis article on this subject, says, "It is claimed to a certainty which leaves no doubt, that the sugar crop of 1915 will be different results, that the sugar crop this year will be scarcely more than 1,000,000 tons, a large deficit on the yield of the past year of 130,000,000. The exorbitant and long severity of the last two winters affected the economy, and the sugar crop of 1914 was only 1,000,000 tons. The sugar crop of 1915 was 450,000,000 lbs. in 1850-1855, 220,000,000 and this year, as noted in 1900, 120,000,000."

DEATH OF COLIN C. FERRIS, a deeply regretted to announce the sudden death of Colin C. Ferris, of Hamilton, who resided in Hamilton on Sunday. Few persons in Canada are better known and more respected than was Mr. Ferris. As head of the Hamilton branch of the Canadian Red Cross, he had been a most active worker, and his death a most serious loss.

The idea of this Procession was somewhat novel in Canada, and—as it regarded Montreal—the results must be most beneficial. No better advertisement of handicraftsmanship and artistic production could have been given, and the number

Of course was brilliant beyond conception. Bonsecour's Hall was quite too small to accommodate the thousands who rushed to the scene of festivity. Bonny chivalry were there—but the hoops!

and in the political world he had been a consistent Liberal. He was the brother of Hamilton, and had a seat in the Upper Parliament before the Union. Mr. Ferrie would cause deep grief to a wide circle of friends. He was the eldest son of the Hon. Adm. and brother to Sir Robert Ferrie, M. P.
